**BRIDGE DECK REPAIRS ON INTERSTATE 293 IN MANCHESTER**  
***WORK ON SOUTHBOUND BRIDGES BETWEEN EXIT 5 AND EXIT 4***

The New Hampshire Department of Transportation announces bridge deck repairs will take place at various bridges on I-293 (F.E. Everett Turnpike) southbound between Exit 5 and Exit 4. The work will require daytime lane closures and is scheduled to take place Monday, August 20.

A New Hampshire Department of Transportation crew will restrict traffic on various I-293 southbound bridges between Exit 5 and Exit 4 to a single 14-foot wide lane. The lane closures will begin at approximately 9:00 a.m. and last until approximately 12:00 p.m. Plans are to use advanced warning signs, arrow boards, and state police to guide vehicles through the work area.

In the event of adverse weather, work may be delayed until the next suitable workday.

Motorists traveling on I-293 southbound in Manchester are asked to use caution while driving through the work zone, as workers and equipment will be present. Minor delays may be expected.
